## **News from the Morochos**

Dear friends,

We trust that this finds you well. There are several things we are grateful for that we would like to share with you.

We are so grateful that our students had the opportunity this summer to minister in some churches in the Midwest area. The Hispanic churches are growing and they need help, so we were glad to send a group of students to work with them. Please pray for the returning students and the new students of both the language and the Bible school. There are about 40 new students: 20 for the language school and 20 for the Bible Institute.

I am also glad that I was able to take at least one class this summer, called "Introduction to Greek Exegesis." Though this class has been difficult, I have been enjoying doing the assignments. It requires a lot of research and knowledge of Greek, but this class is very practical for me because it will help me to better interpret the scriptures. I have two more weeks to go, and two more papers to turn in.

We are thankful that Vicky's father is doing so well. His body is responding well to the medicine he is taking. Yesterday the doctor gave the first medical report and it shows that the tumor has shrunk and the lungs and bones are clean. Both of my parents-in-law are growing in the faith. Please continue praying for their spiritual growth and that they would become involved in their church. On August 07, there will be a family reunion in Taiwan; pray that God's name will glorified.

We are thankful that our kids got opportunity to visit and play with their cousins. Esther is growing and is now teething. Please pray for Vicky; she is very busy with the kids and helping her parents to grow spiritually. Pray for her this coming Thursday (Wednesday here) as she will share her testimony in her parents' church. We would also like you to pray for Vicky's return trip to Texas with all three of the children - that the kids will travel well.

Thank for your support; may God continue bless you.

In his Grace,

***Milton, Vicky, Joshua, Ben, and Esther Morocho***
